❖ **Lubricants & Fuels:**
Polyrheo has a comprehensive lubricants portfolio to service automotive and industrial lubricants needs. Our product line includes, not only additive packages for these industries, but additives also for those who prefer that route. We also carry fuel additives.

❖ **Raw Materials for Lubricants:**
This portfolio is unique and put together with the thorough knowledge of the Aviation and Military lubricants industry and their unique needs. Our goal is to bring all relevant raw materials, for base stocks and the formulated lubricants, for this sector under one umbrella.
